

If you have more Laser printers than you have time to manage, leave it to us. We'll take care of everything. The more Laser printers you have, the more time it takes to service and maintain them all. Now you can keep your resources focused on their "real" jobs, leaving printer issues to Tek-NiqueInk.

We'll help you protect your printer investment, minimize downtime and increase efficiency with Tek-NiqueInk's Print Management Solution. This program was created for customers who want a convenient, competitive, single-source solution for handling all their laser printer maintenance and supplies. This program includes the following products and support at a guaranteed service level and consistent per-page charge, regardless of changes in print volumes. That is, you only pay for what you print!
